TruRehab
of Kendallville Manor
Recover in Comfort and Style

Everyday tasks that we often take for granted can become nearly impossible after an accident or illness. Our primary focus is putting patients on the path to full recovery with the ultimate goal of returning them to their own home.

We offer three advanced rehabilitation services including *physical therapy* – working on strength and flexibility, *occupational therapy* – reestablishing everyday tasks at home, and *speech therapy* – addressing problems with swallowing, language or voice.

Together we work to establish goals with an interdisciplinary team of therapists, social workers and nursing encourage our patients achieve their highest level of function.

RESIDENTS *first!*
